TO OUR PATRONS AND FRIENDS

A number of Ice Plants over the country have found after careful examination of their books that it cost them about 10 per cent to charge and collect their retail ice accounts. As a result they are rapidly placing their retail business on a cash basis.

Our own experience being in line with the above and believing that this 10 per cent cost is an unwarranted loss, we have decided to do likewise. However, we do not expect to add this 10 per cent to our profits; but will reduce our prices accordingly, so as to give the benefit of the saving to our patrons.

Therefore beginning March 15th, 1915 we will conduct our entire retail business strictly for cash and the following reductions will be made on Ice Coupon Books.

400 lb Book, Old Price \$2.50 less 10 per cent, New Price \$2.25
1000 lb Book, Old Price \$5.00 less 10 per cent, New Price \$4.50
2000 lb Book, Old Price \$9.00 less 10 per cent, New Price \$8.10

It is our purpose to render the best service possible and to this end we will welcome suggestions and the co-operation of our patrons. Respt.

The next serial story at the Rex is mysteriously called The Black Box. The question naturally arises what is the Black Box.

A woman's persistency is proverbial. She made a wrong start in the Garden of Eden, but she has been trying to get her rights ever since.

Between the peace assemblies and war preparations the poor dove of peace, like the perplexed congressman, wants to know where it is at.

Reverend B. H. Canary Jr., of Lexington will preach at New Antioch the first Sunday in April. Let every member and a good crowd be present.

The price of wool is soaring high, and it looks as if the demand for lambs for June and July delivery will bring eight and possibly nine cents per pound.

The "Master Key" at the Rex will be run through first on March 30th promptly at 7:15. See the "Master Key" and come on to the Glee Club Concert.

Statistics tell us very few married men are in charitable institutions. It may be an unjust inference that the married men are being supported by their wives.

Runaway June promises to bring more feverish actions, more unique adventures, more exciting romances than has ever been seen in Lancaster on the screen.

Bangs Landram says "we editors" are "pretty decent sort of fellows", and he might add, that by hard work we have all attained an extraordinary degree of poverty.

Great Britain may have forgotten some painful experiences she had in the past in trying to hamper American shipping, but she had better put on her "thinking cap".

News that a new telescope is to bring the moon within thirty-nine miles of the earth makes enterprising real estate firms like Hughes and Swinburne sit up and take notice.

Miss Sallie Elkin has some beautiful and artistic pieces of hand painted china for sale. Some of the pieces are small and inexpensive, suitable for graduating presents.

Servia is a small country, with no resources, but it started the greatest war in the world. Rumania is also a small country, whose most notable product up to the present time has been Carmen Sylvia, the poetess. But it may end the same war.

The Exploits of Elaine is a remarkable story and motion picture drama. A real masterpiece of thrills from start to finish, showing hundreds of sensational adventures. The country people have the opportunity of seeing this at the Saturday matinee.

This spring, the principal interest of the world centers in the European battlefields, where the awakening of nature is expected to bring about a revival of hostilities on a scale of destructiveness which will make all that has gone before seem trifling in comparison.

With the parcels post in operation and the big mail order houses flooding the country with catalogues and price lists of their goods and wares, it behoves the local merchants to put on considerable more steam in their newspaper advertising or be the losers by failure to do so.

Go to the picture shows and see the great serial pictures and the hilarious western comedies full of cowboys and bucking broncos, tales of romance adventure and tragedy, also the spectacular Jungle-Zoo and a horde of wild beasts—all in action. No need to spend a dull moment in Lancaster.

Many things this spring will bring us. We may predict with certainty—green grass and blossoming trees and variegated circus posters and baseball and Easter millinery bills and gurgling brooks and garden seas and spring poetry and sweetvoiced songsters and cooling lovers and other flora and fauna.

It is amazing how mad our modern world is after amusement. The feudal lord kept his fool, who was anything but a simpleton, but our modern world is content with nothing that is not highly spiced with entertainment. Our professors must have their stories, our professors must be clever as well as learned, and our evangelists (God forgive us) must be vulgar before our attention is much attracted.

ENCHANGE.

The ladies, of the Baptist Church, will have an exchange at W. B. Ball's grocery store the Saturday before Easter. They will have everything good to eat. Let them do your baking.

RURAL DELIVERY CRISIS.

The system of rigid economy which has been inaugurated in the Post-office Department threatens to bring about a crisis in the rural free delivery service. The abolition of routes which are not self-sustaining is indicated in a letter to Postmaster General Burleson from Chairman Moon, of the House Committee on Post Roads.

MOONLIGHT SCHOOLS OPEN.

Three moonlight schools opened in Danville last week. One is located on Maple avenue, the second on East Broadway, and the third at Salvation Army headquarters. All were fairly well attended, while many more students are to be enrolled. Considerable interest has been awakened, and the indications are most favorable for a large attendance and splendid work.

FIVE GENERATIONS.

Mr. and Mrs. Robert H. Ward of this county are the proud parents of a son born March 16th. Doubtless the young man will get all the petting that is due him as he has more ancestors living than usually fails to ones lot on entering this "vale of tears". Besides his mother and father he has a grandmother and father and a great-grandmother and father, and a great-great-grandmother and father, making the fifth living generation. Luck to him.

CLEAN-UP DAYS.

The state health authorities have designated Friday and Saturday, April 16 and 17, as "Clean-Up Days," and the city officials, acting in conjunction with the Civic Department of the Woman's Club, have given assurance that they will help in a systematic cleaning of the town, which will mean better health, purer air, fewer flies and a much more attractive town. The woman's club is also determined that hogs shall not be tolerated in town as they were last spring.

A TOWN OF "JINERS".

Lancaster has always been active in societies and organization. Truly, this could be called a town of "jiners" and an ordinarily active person may be an officer in a dozen organizations.

To our church and fraternal orders and philanthropic societies, has been added what is known as the Puget Sound Fish Club, with R. L. Elkin, Pres., L. G. Davidson, Secy., and S. F. Hughes, Treasurer. The purpose and work of this club which is, of course, commendable, will be stated after the work of the club is better organized.

CIRCUIT COURT ADJOURS.

The three weeks term of the Garrard Circuit Court adjourned finally last Saturday. From a financial standpoint it cost the state less than any court that had been held in the county for years. The smallest list of claims ever filed in any court here, jury claims, witness claims and claims from all sources amounting to less than \$1,000. Circuit Clerk Mason, says that if business doesn't pick up his friends will have to take care of him, or else he will land in the pauper institution. The grand jury returned a total of 46 indictments, forty of which were for misdemeanors and six felony cases.

FIRST DAY OF SPRING.

Sunday marked the beginning of Spring.

In the northern hemisphere the vernal equinox, the point at which Old Sol in his annual apparent course crosses the equator on his northward journey, was due Sunday, and although the weather man gave us snow, and Sunday night gave us still more snow, we are told King Winter's back is broken. King Winter will not give up the fight without a determined struggle. He is a crafty general, and he will make many an unexpected sally and fire many a broadside from his big guns before he leads his defeated forces across Canada and Newfoundland to the ice-girl fastnesses, where he hides his time until ready for another onslaught on the lands of the South.

SPRING OPENINGS.

Never have we seen a more beautiful display of hats, dry goods and notions than our Lancaster merchants displayed last Saturday. They did their part and if the weather man had given them better weather the day would have been perfect.

The Dry Goods Stores of the Joseph Mercantile Co., J. E. Dickerson and the Busy Cash Store of G. M. Lyons vied with each other in beautiful windows and attractive goods. Delightful musical programs were rendered at Joseph's and Dickerson's, carnations were also given away by some of the enterprising merchants.

The hats were too beautiful and artistic for a "mean man" to describe but very pleasing to look at. Altogether it was a gay day for Lancaster.

EYESTRAIN HEADACHES.

RELEIVED.

Dr. Byrne's Drugless, Painless Test, and Scientifically Glasses will do the work. Now at Kengarla Hotel, Lancaster, will remain until April 3rd.

Preaching At Pleasant Grove.

H. W. Elliott of Sulphur will preach Sunday morning and evening at Pleasant Grove church and all are cordially invited to hear him.

MANUAL TRAINING EXHIBIT.

So much interest has been shown in the manual training and domestic science department of the graded school, that an exhibit of this work will be displayed at the school building Friday afternoon, from three to four o'clock. Display of other work from the different grades will also be shown and the public and all patrons of the school are invited to attend this exhibit.

William Renner.

This handsome picture is a capital likeness of William Renner, one of the contestants for the Pony and Cart. He is a hustler and has gotten out some unique cards announcing the fact he wants his friends to vote for him. He also says he is one of the great common people and in pushing his candidacy on that platform, he is the son of Mr. and Mrs. Charles Renner and a nephew of Mr. and Mrs. R. Zimmer, of this city.

Aleene Thomas.

This little girl is a daughter of Mr. and Mrs. Jess Thomas and is an enthusiastic worker for the Pony Outfit. She is securing votes all over the county and has brought many new subscribers to the Central Record. Her friends are working hard for her and hope to see her land the coveted prize.

Send In Your Picture.

So many of the contestants in the Pony Contest have asked that their pictures be run in the Central Record, and to be fair and impartial to all, we will run each contestants picture and a little local free, provided however the cut is furnished us. The cut will cost one dollar. Bring us your picture and we will have cut made and run two or more of the contestants each week until the contest closes.

TRANSYLVANIA GLEE CLUB.

The music loving people of this vicinity as well as those who enjoy a bit of fun by way of a pleasing farce are looking forward to Tuesday night March 30th, when a delightful program will be rendered by this Glee Club at the school Auditorium. Among the songs will be "Twilight", "Piccaninni Lullaby", "Way Down South" and etc. A one act farce, entitled "A Telegram From Dad" featuring Mr. Karl Borders as Mrs. Rush, wife of the football coach, will keep the audience in an uproar of laughter from start to finish.

The Glee Club is composed of the following members:

E. W. Delecamp, Director, J. C. Hobbs Manager.

First Tenor.

D. H. Griffin, H. B. Mason, B. E. Watson, J. B. Earnest, P. M. Trout, R. W. Fox.

Ponce de Leon Failed; His Prize Is Found

Ponce de Leon, the daring explorer, searched among the swamps of Florida for the Fountain of Youth, which the Indians said would restore power and make people young. He did not find it. Thousands of chronic intestinal, bowel and stomach sufferers have written to Gen. H. M. Bowmar, 152 Whiting St., Chicago, in quest of health. They have found it. His remedy, composed of healing vegetable oils from France, has indeed given them back the health of youth.

Why suffer from indigestion, gases on the stomach, fainting spells, torpid liver, constipation and all the evils of a disordered stomach when there is permanent relief here? May's Wonderful Remedy is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.

Attention Horsemen!

The influence of the European struggle is everywhere manifest, and is of prime importance in shaping the future plans of the American Horse Business and there is every indication that farmers will take advantage of the situation and breed their mares this spring. The stallion and jack owner who places his animal before the notice of mare owners is the one who will secure the business, and he cannot do it more thoroughly or inexpensively than through the columns of The Central Record.

Foreign demand marked the exhaustion of foreign supply and we may expect the call for our horses to continue long after the war is over. Our advice to mare owners is to breed their mares and to breed them to stallions of merit and proven worth as sires. Avoid the short-sighted policy of patronizing cheap sires.

In addition to our regular list of subscribers, we will send out extra copies of the Record to leading farmers and horse breeders of Kentucky, adjoining States, Southern and Southwestern and Middle Western States. Write or see us for rates.

The Country.
I am longing for the country where they still eat mush and milk.

And where the cooks have not yet changed from woe to bacon milk;

Where the good wife still wears calico and 'bout styles never frett;

Where girls still smell of wood smoke, not of talc and cigarettes.

—Cincinnati Enquirer.

I am longing for the country where I used to have cold feet;

Where the winters are a terror and the summers a treat;

Where the women and the children do not fear the outdoor air,

And a fellow's private business is no neighborhood affair.

—Nebraska Journal.

I am longing for the country, I am longing just to be.

Can I let the whiskers grow upon the face o' me;

Where I can let my hair grow in a wild and woolly way,

And where father does the farmin' and there ain't no board to pay.

—Houston Post.

Luke McLane Says:

When you say that some men are fatheaded fools every man in your audience knows that you are talking about the other fellow.

Some men never forget to take the pains with them when they go out, but they always seem to forget to take any matches.

Eve was about the only woman that ever moved into new quarters and didn't kick about the dirt left by the women who moved out.

Shapes is shapes. That's one reason why you never hear of an excelsior factory failing.

It is funny, but it is a fact that most

of the men who use perfect grammar are earning \$20 per week, and most of the men who say "them things" and other brash language expressions own their own homes and have a substantial bank account.

The old fashioned woman who used

to use a whole paper of safety pins when she was dressing now has a daughter who wouldn't know how to use one if she had it.

Before marriage he imagines that it is aentmeal that makes her save his love letters, but after marriage he learns better.

You may not believe it, but the girl who has a nose like a battleship doesn't eat half as much as the girl who is built like a hump.

Prayer will right once in awhile, but the man who puts blisters on his hands gets more than the man who puts blisters on his knees.

A real woman will spend 25 cents to save a dime.

Any undertaker will tell you that he would starve if he had to depend on the men who are always helping that they are working themselves to death.

The brunettes are just as light headed as the blonde.

What has become of the old fashioned girl who used to get bedquilts and flannel petticoats for wedding presents?

Anyway, Adrin didn't have to sit around at night and listen to Eve bragging that she wished she had some decent clothes to wear like other women.

A big Bowmar tour for the coming summer is a four week's trip through the West to the California expositions starting August 2. For more than a year Mr. Bowmar has been engaged in working out details of this tour. The itinerary includes visits in San Francisco, Los Angeles, Santa Barbara and San Diego, California, stopovers at the Grand Canyon and in Denver, Colorado and Salt Lake City, Utah. There will be other Bowmar tours in July and September to Atlantic City, New York and Washington and to Niagara Falls and Canada.

KENTUCKY EDITOR

Who Has Scored Great Success In Tour Business

Some eleven years ago, a railroad official urged a friend of his, a newspaper man at Versailles, Ky., to conduct a party from Central Kentucky to the Louisiana Purchase Exposition at St. Louis.

The railroad man assured his friend that the latter was better fitted to direct a personally conducted tour than any other man in the State. Yet when the editor met his first party of thirty people in the gray dawn of the morning at the local railroad station, he little thought that he was inaugurating one of the important tour agencies of the country. But so it was and "Bowmar's Tours" was a household word over a very large territory.

The editor was Daniel M. Bowmar. He gave his party an extra fine trip for a moderate price which included everything, secured for them special privileges not enjoyed by the average exposition visitor and brought them

PAINT LICK GLEE CLUB.

The Paint Lick Dramatic and Glee Club will give one of their delightful entertainments at Kirkville Friday evening of this week. Prof. Waterbury of the Paint Lick school has some splendid programs which has been given this winter and we know that those who attend the one at Kirkville tomorrow, Friday night, will be highly entertained. The program of this comedy and musical appears on the page 8, of this issue.

PARENTS OF GRADUATES.

At the invitation of Prof. Cancer, the parents of the twenty-two graduates at the high school this year, met at the school building last Friday and a delightful hour was profitably spent. The parents agreed to co-operate with the graduates and teachers and to see that lessons were well prepared and that at least four nights out of each week were spent at home in preparing their children.

The class is the largest that has ever graduated from the school here, they are just as good in quality as quantity and Lancaster is proud of the whole bunch.

The following invitation has been mailed to each contestant in the Pony contest and a treat is in store for all those who accept.

You are invited by the Merchants of the pony contest to attend the matinee at the Rex Theater, Saturday afternoon, March 27th, at 2:30 o'clock. Present this card at 2:30 o'clock and receive 1000 votes free. A special program has been arranged for your entertainment."

LEASES HOTEL.

Mr. Charles Renner, who has been staying at the Kengarian hotel for several months and is a brother of Mrs. R. Zimmer, has leased the Newtonian hotel at Somerset and has taken charge.

Mr. and Mrs. Renner we know will conduct a hotel that the Somerset people will be proud of, as they have had quite a little experience in this line in the East where they have lived for several years. We wish to commend Mr. and Mrs. Renner to the good people of Somerset and bespeak for them a liberal patronage.

BEACHEY KILLED.

The thousands of people who saw Beachey perform his death-defying flights at the Kentucky State Fair in Louisville last fall could not but wonder at the nerve of the man and marvel at the fact that he had lived through many such perilous exhibitions. That he would be killed eventually was a prediction heard from many tongues and no gift of prophecy was necessary to the making of such a forecast.

He is gone, but he will not be forgotten soon by those who have shuddered as they watched him in his reckless dips, dives and somersaults in his fragile flying machine thousands of feet in air.

THE BYRNE OPTICAL SERVICE.

Offers you the latest styles in Spectacles and Eyeglasses, at the lowest possible price. Will remain in Lancaster, until April 3rd. Office at Kengarian Hotel Parlor.

WELL KNOWN SOUTHERN WOMAN ON VERGE OF DISPAIR

I Hope Every Woman Suffering As I Was Will Try Andes' Declares Mrs. Hoskins.

TREMENDOUS DEMAND FOR NEW PREPARATION.

Mrs. W. H. Hoskins of 512 Market street, Chattanooga, Tenn., made this statement about Andes, the preparation that is accomplishing such remarkable results here:

"For years I have been in a rundown condition, nervous, weak and dizzy. I was actually so nervous that any sudden noise or excitement would produce a palpitation of my heart that frightened me. I had nervous headaches and when they came on it seemed as if a tight band was drawn around my head. I shudder when I think of these sick headaches. My stomach was weak. I could not digest the lightest kinds of food, any food of solid nature caused nausea and sickness sensation remained for hours. My misery was almost unbearable, my sleep was never sound, and I felt tired and worn out all the time, my condition was deplorable one, nothing I have used helped me at all. I was on the verge of giving up despair when a neighbor pleaded with me to try Andes' Great Prescription. I purchased a bottle and began to improve as soon as I had finished a bottle. I have now used four bottles, my nervousness and dizziness has disappeared.

My headache has gone and my strength is returning every day. My appetite and digestion has improved and I am so much better in every way. Andes' Prescription is the only medicine that has ever really helped me. I hope every poor woman suffering as I was will try it, hundreds of other men and women who are suffering with similar complaints are now testifying to the marvelous merits of Andes' Great Prescription. The demand for the medicine is tremendous all over Kentucky. They are sold in Lancaster by the McRoberts Drug Store.

Mr. Cooper said: "I am, indeed, gratified to see such marked enthusiasm, and I feel justified in predicting that Tanlac will prove just as successful in Louisville as it has in the larger cities. I do not believe that I am overestimating the success of the medicine when I state that I am confident that from three to five thousand people will call and obtain Tanlac during this week."

Mr. Cooper was asked about the charitable work he intended to perform in Louisville. He replied: "Yes it is true that I have written the Associated Charities asking that organization to furnish me, as soon as practicable, with the names and addresses of at least fifty of the most deserving poor families of your city, whom I propose to help. I have also written St. Joseph's Orphans' Home, offering certain contributions. I shall communicate with similar institutions within a few days with the view of endorsing their noble efforts by assisting them in some substantial way."

"In conformity with my usual custom of encouraging the hospitals, I will make special concessions with reference to supplying such institutions of your city with Tanlac, as I consider the preparation a superior tonic in all cases of convalescence."

The famous medicine, Tanlac, can now be bought in Lancaster only at R. E. McRoberts drug store.

Mr. Eugene Sutton, a former Garrard county boy and a brother of Mrs. J. E. Dickerson, had quite a harrowing experience in Brunswick, Ga., a few weeks ago. It was at this place where Monroe Phillips killed six people and was in turn killed by one of the citizens.

Mr. Sutton had an office in the building in which the shooting began and only escaped by a mere miracle. He was an unwilling witness to the whole tragedy being hidden behind a post to escape being hit by the enraged man. He saw seven men killed and about twenty-five wounded. Mr. Sutton is to be congratulated upon his narrow escape.

SESSION OF MISSIONARY SOCIETY.

The Women's Home and Foreign Missionary Society of Transylvania Presbytery, held an all day session in the Presbyterian church Tuesday. Mrs. J. Q. A. McDowell, of Danville conducted the opening devotional exercises. Mrs. E. G. Gaines delivered the address of welcome, while Mrs. J. M. Dalton, of Hafrodsburg, the capable president of this district, responded in a bright and happy way. The morning session was devoted largely to reports of secretaries and committees, while the afternoon session was given over largely to Miss L. J. Cooper, a returned missionary from Siam. A good audience greeted Miss Cooper and all sat spell bound as this "soldier of the cross" related her experiences and told of the needs of another land.

An invitation was given and accepted to meet in Danville for the Fall session.

At the close of the meeting the following resolutions were adopted.

We, the Ladies of Transylvania Presbytery desire to express to the Ladies of the Presbyterian church and to the people of Lancaster who contributed to our comfort, our appreciation and thanks for the delightful entertainment and cordial welcome, which they extended to us.

Married on St. Patrick's Day

By LOUISE B. CUMMINGS

There is no cutting that would seem to cause so much suffering from sympathy as a person employed in a manufacturer or on a railroad to break the news to an operative's family that he has been killed. Where there are a large number of employees there is usually such a person, for there is a certain percentage of workmen killed every year.

Kathleen O'Rourke and Patrick O'Conor met at a ball on the evening of St. Patrick's day, and Pat had asked her to dance with him many times. Afterward he invited her to go to a moving picture show with him. From that time forward they were together when not at work, and it was evident they were about to make a match.

But Pat had a mother to support, and Kathleen, who was an orphan, was a mother to a little brother and a sister. So they couldn't marry until they had laid up something. They both worked in the same factory, and each lived in a house built on the premises by the company to be used for homes for its employees. So they saw a great deal of each other.

They agreed that when their wedding occurred it should take place on the anniversary of their meeting, which was the evening before St. Patrick's day. When this first anniversary came around Pat had saved \$400, and Kathleen had saved \$200, and they decided that if they did as well the next year they would be married the evening before St. Patrick's day.

On the first of the year they counted up their savings and interest and concluded that with their nest egg they might be married and have enough for themselves and those dependent upon them. Kathleen bought what clothes she would need to last a year after her marriage, and in due time the banns were published in church. Finding it inconvenient to be married on the very day they had planned, March 16, they set their wedding day for the 15th. This was partly because Pat was one of the committee of arrangements for the St. Patrick's day parade and was to lead his society on that occasion.

When the hour came for the wedding Pat did not appear. Kathleen, dressed in her bridal apparel, waited for him with a wildly beating heart lest something had happened to him. She went to the door a dozen times to look for him and finally stationed herself at a window where she could look up the street on which the workmen's cottages were built.

Presently she saw Owen MacTavish coming. MacTavish was known to every one connected with the plant as the company's bad news breaker, and many a woman's heart beat quick when she saw him approaching her house. Kathleen no sooner saw him coming than she fancied he would stop at her home to tell her that Pat had been killed. Before he reached the door she had fallen in a swoon.

Now, MacTavish did not stop at the O'Rourke cottage and was unconscious that he had frightened a girl there into a swoon. Kathleen was picked up by her friends, who had gathered to attend her to the church for the wedding. When she came to herself she looked about, dreading to see the bad news breaker, but he was not there.

"Is he gone?" she asked.

"Who gone?"

"MacTavish."

"He hasn't been here."

"And Pat isn't dead?"

"Nobody's heard of his being dead."

"Thanks be to God."

But Pat did not appear, and no one came to have any news of him. Word was sent to the company's office to inquire for him, but no information was elicited.

Kathleen for a while gave herself up to grief. She was uncertain whether Pat had met with foul play or whether he had deserted her. It would have been easier for the poor girl if she had known which of the two suppositions was correct, for it would have relieved her somewhat of suspense.

When St. Patrick's day in the morning came round Kathleen made up her mind that her lover had deserted her and with true Irish grit declared that there were no good lads in the sea as ever were caught. Then the children asked her to take them to see the parade, and she consented; not that she wished to do so, but that she did not care to disappoint them.

They were all standing on a stoop where they could see the parade over the heads of others, and the societies were marching past when who should appear marching at the head of one of them but Pat. He saw Kathleen, but she gave him a withering look and turned her back to him. Relinquishing the command to another, he left the ranks and joined them.

This was Pat's explanation of his conduct. An accident had occurred at a mine owned by the company some miles away, and a rescue party was lensing on a train. Pat was ordered aboard and, instead of being married, was engaged in digging out buried miners. He returned on the morning of St. Patrick's day only in time to take his place in the parade.

It required some time to prove his conduct; the maiden, for she thought Pat might have at least sent her word as to what had happened, but the fact that he had been the means of saving the lives of a number of miners finally induced her to forgive him and go with him that afternoon to the church.

POULTRY and EGGS

RAISING CHICKENS.

Feeding and Care From Incubator Until Turned on Range.

Little chicks should not have anything to eat for at least thirty-six hours after leaving the shell. The reason for these hours of starvation is that the yolk is absorbed by the chick immediately before it breaks out of the shell, and must be allowed plenty of time to digest and pass through the bowels before any foreign substance is introduced.

In removing little chicks from the incubator to the brooder they should be gradually hardened to the outside

Not testing eggs in an incubator means loss. Eggs may be infertile, one rot may kill all embryos or the poisoned air may weaken germs and cause chicks to die early or weaken hatches. A thermometer to resting on a rot or infertile gives a false standard for live eggs with natural heat, and thus the machine runs too high and spoils the hatch.

air by slightly opening the incubator door, writes N. L. Harris, Kansas Agricultural college, in the Kansas Farmer. If hardened in this way there will be little danger of chilling the chicks in removing them from the one machine to the other.

Hard boiled eggs ground shell and all and mixed with five times as much rolled oats as egg makes a most satisfactory first feed. A small amount only should be given, scattered on a clean board. This can usually be accomplished by tapping gently on the board with the finger nail, imitating the mother hen and setting the particles of feed in motion so that the chicks see them. A feed even more to my liking is to take the yolk of a raw egg and stir in rolled oats till it is a dry, crumbly mass. I like to feed this for the first week. Over this I sprinkle a little chick grit, pulverized charcoal and granulated bone. If possible I feed sour milk from the first and plenty of clean, fresh water always. Gradually after the first day I add finely cracked wheat and corn or Kraft. Twice daily feed in a shallow trough all that will be consumed in twenty minutes of a dry mash composed by weight as follows: Bran, two parts; cornmeal, one part, and after the second feed fine beef scrap, one-fourth part. I find little chicks do not relish shorts.

The ration suggested above is not changed until the chicks go out on the range, when the mash may be hopper fed, the cracked grain being scattered near the troughs for the first feed each morning. At noon a wet mash, the same as the dry, may be fed advantageously, especially during the very hot weather, and at night another feed of grain scattered where it can be easily found and plenty of it.

Personally I do not like the method of hopper feeding for the first eight weeks as is recommended by some very successful poulterers. One is likely to neglect his duties, and there is not the intimate knowledge of the flock such as is gained by feeding from the hand.

Milk For Egg Production. Experiments carried out at the New Jersey experiment station have shown that the use of sour milk will increase egg production as much as 25 per cent over birds of the same kind and age who did not receive sour milk. When feeding skimmed care should be taken to keep the vessel clean and sweet. An abundant supply of sharp, coarse grit, as well as ground oyster shell, should be kept before the birds constantly. The grit aids digestion and the oyster shell furnishes carbonate of lime for the eggshell. The floor of the poultry house should be covered to a depth of from eight to ten inches with a good coarse straw litter, which should be kept clean and dry. This litter will furnish exercise for the birds.

Managing the Incubator. In the use of incubators and brooders one must strictly follow the directions of the manufacturer. As the instructions for operating vary somewhat with different machines, specific directions can be given covering all points. In general, fill the lamp daily and keep the wick clean. After testing the eggs on the seventh day, turn them twice and cool them once a day until the eighteenth day. Do not open after that until the hatch is complete.

THE CIGARETTE LAW.

The last legislature passed an act regulating the sale of cigarettes to boys under eighteen.

This is one of those measures that needs to have back of it an aggressive public opinion. It is the regulation of personal habits; it is the exercise by the State of the police power for the purpose of preventing temptations being thrown in the path of the young and the unsuspecting. The State owes a duty to the children to protect them from commercialized temptation. The police authorities have no option in the matter. The Legislature acts and the authorities are required to enforce its decree.

"I Don't Feel Good" That is what a lot of people tell us. Usually their bowels only need cleansing. Rexall Orderlies will do the trick and make you feel fine. We know this positively. Take one tonight. Sold only by us, 10 cents.

R. E. McRoberts

Stop! Look! Listen!

They are shipping horses and mules out of our country by the thousands and it seems to me the best time in the world to raise all we can.

Old Black Joe, Young Napo and Silver Silk will make the season 1915 at Ben Ham's barn, Hyattsville, Ky.

OLD BLACK JOE

A four-year-old black Jack, over 15 hands, extra heavy body and large bone and has proven to be an excellent breeder. The first mare that he sired, sold for \$90.00 cash, at weaning time. Any Jack that will sire a mare that sold for \$90.00, last fall, deserves the patronage of the country.

YOUNG NAPO

This is a two-year-old, coming three that bids fair to make a splendid Jack. He is by Napoleon 3rd, the largest Jack that I have ever seen and out of a John Morgan Mare. He will be permitted to serve a limited number of mares.

SILVER SILK

A 54 inch pony, beautifully marked with white and black, and large enough to be useful, not the play thing size.

He is a grand son of Dock Grey and out of an excellent pony mare. They will each stand at

\$8.00 to Insure A Living Colt.

A Lien retained on all colts until season is paid and the season is due from the man who bred mare if parted without our consent. Very careful, but not responsible for accidents.

E. B. HAM, HYATTSVILLE, or S. H. ALDRIDGE, LANCASTER, KY.

Duke Of Denmark, Jr

This richly bred Saddle Stallion will make the season of 1915 at my stable on the Cuckeye Pike, about 2 miles from Lancaster, Ky., at the low price of

\$8.00 TO INSURE A LIVING COLT.

PEDIGREE—Duke of Denmark, Jr., by Duke of Garrard, he is the old Duke of Denmark. First dam of Duke of Garrard, the House mare, she sired by old Black Squirrel. First dam of Duke of Denmark, Jr., Anne Bell by Wallace Denmark, and out of Lady Morgan, by old Stonewall Jackson.

The Duke is a beautiful rich red bay stallion, 11 years old and has proven to be a sure foal producer and a true breeder of combined horses. See him before you buy him.

Lien retained on all colts for season money. Care taken to prevent accidents but not responsible should any occur.

THE TALLEST FLAGPOLE

A fitting symbol of the mighty forests of the West is Astoria's flagpole, the tallest in the world, which floats the Stars and Stripes 211 feet above the Panama-Pacific Exposition seawall at the corner of the Oregon building, says the San Francisco Chronicle.

The pole, for it is a single stick of timber, is actually 231 feet long, but ten feet of its butt is embedded in a 200-ton block of solid concrete, which, without other stays, holds the pole upright against the wind.

The pole was shaped from the trunk of a Douglas fir, whose, as it originally stood in the Oregon forest, towered 317 feet in the air, and might have matched in height though not in girth, against any but the loftiest of the California sequoias.

Looking up at the great flagstaff it is hard to realize that it weighs upward of 46 tons, and that there is lumber enough in it to build five ordinary eight-room houses. Its great weight gives it an appearance of slenderness and lightness.

Just to transport this pole and set it up, Russell Hawkins and citizens of Astoria spent nearly enough thousands of dollars to build several of the houses it is lumber might construct.

TO HAVE BEAUTIFUL HAIR-NO DANDRUFF.

If your hair is losing color, too dry, brittle, thin, or the scalp itches, immediately begin the use of Parisian Sage. The first application stops itching head, removes all dandruff, invigorates the scalp, and beautifies your hair until it is soft, fluffy and gloriously radiant.

Parisian Sage supplies all hair needs and contains the exact elements needed to make it grow long, thick and beautiful. It is delicately perfumed and not expensive at R. E. McRoberts.

You will be delighted with this invigorating toilet necessity for nothing else is so beneficial as Parisian Sage or so quickly gives the hair that enviable luster and fragrance.

THE CITY GUY.

"I've got an idea," said Farmer Brown, "It's pretty expensive to live in town. It's nickel here and it's ten cents there. For you can't get 'round th'out payin' fare, And a feller must dress purty dog-gone cute.

For he can't get by with a ten-buck suit, And if he don't keep himself in trim, There ain't much business comin' to him.

If a feller ain't dolled up purty slick He loses his case and he loses it quick, He most wear a collar and tie, by gum, Or they put him down for a ten-cent bum.

He's got to have callin' cards printed, too.

For that is the way the townfolks do, He must look prosperous, that's the eye,

And the man that don't, never will get by,

For you can't make good with a business stunt Unless you're there with a good strong front.

CATAARRH TROUBLE

ENDED BY HYOMEI

An inexpensive easily used and most effective remedy.

Surely try Hyomei, nature's harmless remedy for catarrh, colds, asthma, bronchitis, or croup of children a treatment that is pleasant to use, and so certain of results that R. E. McRoberts sells it on the "No-care-no-pay" plan.

Hyomei is not a cure-all but a specific for distressing catarrh and similar ailments. You breathe Hyomei so that its antiseptic medication at once reaches the irritated and diseased tissues, healing and soothing the sore spots.

Get a Hyomei outfit, which contains inhaler and bottle of liquid, at once. Put twenty drops of Hyomei into the inhaler and breathe it a few times during the day. There is no treatment so satisfying for it instantly opens the stopped-up air passages you breathe freely, the uneasiness disappears from the nose stop, and dull headaches vanish—even the worst cases respond quickly.

DON'T BE A CRAB.

Boost and the world boosts with you, Knock and you're on the shelf; For the world gets sick of one who'll kick.

And wishes he'd kick himself, Boost and the world boosts with you, Boost when it starts to rain, If you happen to fall, don't lie there and bawh,

But get up and boost again.

To The Housewife.

Madam, if your husband is like most men he expects you to look after the health of yourself and children. Coughs and colds are the most common of the minor ailments and are most likely to lead to serious diseases. A child is much more likely to contract diphtheria or scarlet fever when it has a cold. If you will inquire into the merits of the various remedies that are recommended for coughs and colds you will find that Chamberlain's Cough Remedy stands high in the estimation of people who use it. It is prompt and effectual, pleasant and safe to take, which are qualities especially to be desired when a medicine is intended for children. For sale by all dealers.

FOR SOUR STOMACH

GAS OR INDIGESTION.

Use Mi-o-na and Get Immediate and Effective Relief.

When you have heartburn, pains in the stomach and taste undigested food, it's a sure sign your last meal is not digesting, but fermenting, causing pungent gases, sourness and acid stomach.

Prompt and lasting relief for any stomach distress is a simple inexpensive matter if you will only try the harmless Mi-o-na prescription easily obtained from R. E. McRoberts or any druggist.

Mi-o-na is especially prepared to neutralize excess acid and stop fermentation which surely sour your food, causing sick headache, dyspepsia, indigestion and bad dreams.

Mi-o-na not only corrects sour, acid, and gassy stomach, but improves the entire digestive system so that the blood, nerves, muscles, and skin all receive increased nourishment causing clear complexion, bright eyes and that delightful sensation of "feeling fit."

Get some Mi-o-na tablets today—it they do not banish every sign of indigestion they will not cost you a penny.

1915 GIRL WILL WEAR WIDE SKIRTS AND TIGHT WAISTS.

The 1915 girl is going to be a combination of military 1915 and the frills and tight, well-defined waist-line and snug shoulders of 1830. The military fad will be carried into supremacy far into the summer and the gown planned to be quaintly attractive in outline.

Miss 1915 will have a wide, flaring short skirt, a little wider and a little shorter than now, and her bodice will be close fitting. The collars are new, too, and are placed on removable gimpes of net, chiffon, organdie or lace, and button in front and are not nearly so close-fitting as formerly. They will be cut high with a flaring upper-edge arranged in pleats in the back.

From the Broadway slouch the new girl of the year will adopt an erect swinging stride, and in this way the reflection of the European war will be seen in woman's dress rather than in the cut, fabric and color.

WHY IS LANCASTER FIRM?

Because Its Citizens Have Learned The Truth.

After reading this generous and encouraging report from Mr. Austin, those who have the misfortune to suffer, as he did, will naturally long to get similar relief. But to get the same good as Mr. Austin had, you should get the same remedy. There are of course, other kidney pills the same as Doan's. That is why Lancaster people demand the genuine.

I. D. Austin, blacksmith, Stanford Pike, Lancaster, Ky., says: "I had weak kidneys and the kidney secretions were irregular in passage. My back pained me. Doan's Kidney Pills strengthened me in every way."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Austin had—the remedy backed by home testimony, 360 all stores. Foster-Milligan Co., Prop'ts, Buffalo N. Y.

A GRAVE SITUATION.

Today America is in distress because she has no supply of dyestuffs, no abundance of wool. Yet England declares that if we undertake to secure these materials of Germany she will stop our ships on the high seas and confiscate their cargoes.

Germany declares that unless we can induce England to remove her embargo on food, and restore the free list of the London Conference, Germany cannot, with the heat intention in the world, give us the assurance to which, as a neutral, we are entitled.

The neutrality of the sea is a part of the law of nations. It was considered as inviolate as the neutrality of Helgoland itself.

Yet today both of these nations, living by a new gospel of necessity, declare their purpose no longer to recognize it, but by their orders to make the Atlantic a "closed sea."

It is a grave situation which confronts neutral nations, and in the interest of civilization these Orders-in-Council, these Berlin decrees, must be abrogated.

GERMANY'S BREAD DEFICIT.

Beef and Pork in Germany have been for many years extremely scarce, and on reliable authority, as the German press witness, horse, not to say dog, has been as popular as the chicken or the calf. This year, however, there is also a bread shortage. The protective policy which regulates Germany's importing business has not redounded to the comfort of what Helgoland proudly styled "the proletarian aristocracy." The potato famine in Ireland with all its fearful and melancholy incidents finds at present some parallel in the wheat famine of Germany's overpopulated kingdoms and provinces. The empire of Kaiser William can not feed its people excepting by means of costly importations from the far Eastern and Western worlds. Even the finest harvests of Westphalia and Bavaria fail to fill the mouths of the teeming millions that hold the land saved for them by the valor of Arminius. We learn from The Continental Correspondence (Berlin) this condition of things is keeping the country poor. According to Goldsmith: "There was a time, ere England's ill began,

When every rood of land maintained its man."

At present in Germany every rood of land does not maintain its man.

FACTS

This is the time of the year when most every one is thinking of purchasing a New Vehicle. As we are equally interested we would like to call on you in person and talk the matter over. As this is impossible we are taking this means of reaching you. We are manufacturers of BUGGIES that are in a class to themselves, built absolutely different from any other buggy on the market. More merit, more strength, more durability than any other buggy manufactured today. We are willing to compare point to point with the best buggy in the country and leave the decision to you. We are truly proud of the success we have had in the buggy business, and at present time are using every means possible to show you that we have an article that is superior in quality, and the selling system we are using puts them out in cheapest possible manner to reach the trade.

I have been in the buggy business for 15 years in Danville, never have I promised to save you from \$25.00 to \$50.00 on a job. In no case have we ever offered to sell you a good buggy for nothing, or for less than material cost. I have no desire to deceive you. One thing I wish to deeply impress upon you is that we are selling an

Honest Built Buggy at an Honest Price, Give You One Hundred Cents Worth for Every Dollar You Spend

There is no middle mans profits. When talking to our customers we refer them to some users of Arnold's Buggies, usually some liveryman who has used the buggy several years, who will tell you of their highest standard quality. Most any buggy factory can build you a good buggy on paper, and from the description they give it seems as though they were of the best material and perfectly constructed. It certainly does sound good when you read about them. The price is exceedingly low, even lower than the stock can be bought for a good job, and guaranteed in some cases for two years. We never claim to save you from \$25.00 to \$50.00 a job, but we do save you in the first cost and in service. The question we would like to know if they are so good, what liveryman uses these buggies and what success he has had.

If you would like to have the address of some of our livery customers we will gladly furnish same. All we ask is to give us a chance before placing your spring order. We have the largest livery trade in the state. This is our first year to build a \$100.00 job; full leather top, cushions and back, leather trimmings throughout, Arnold's patent gear, Pinneo & Daniels Wheels, best Kelly rubber tires for the small sum of \$100.00. We also manufacture the buggies we have previously made at \$115.00 and \$125.00 in plain top, \$125.00 and \$135.00 in storm top, and the light buggy up as high as \$150.00. We make a specialty of rubber tiring, trimming, painting and repairing. We want to assure you that we appreciate your past trade and solicit your future business.
